

DLD Approval Criteria G 2: Disclosure of program- and course-specific hardware, Web browser and software requirements prior to enrollment.

Screen shot of OnlineHS web site (<http://onlinehs.net/about/technology/>)specifying technology specifications required prior to enrollment:

TECHNOLOGY SPECIFICATIONS

Students should have a reliable home computer connected to the Internet.

This computer should be able to be used by the student at least one-hour every school day (per course). Many families have parent/guardians that need to use their home computer for work/business and/or have other family members who require the computer. Please evaluate in advance of registration if you're able to use your home technology the amount of time required to be successful.

Please make sure that your computer meets or exceeds the following specifications listed below-prior to enrollment.

Operating System and Browser

- Windows Operating Systems:
Windows XP Service Pack 3, Windows Vista, Windows 7
Internet Explorer 6.x or higher and Firefox 3.x to 5.01
The OnlineHS staff finds a greater overall experience using the [Google Chrome browser](#) as it operates faster than any other browser we've tested.
- Mac Operating System
OS X Version 10.4 or higher (Tiger or higher)
Safari 2.x or higher and Firefox 3.x to 5.01
*Firefox Version 3.6+ requires Java 6 Update 10 or higher
NOTE: Some courses contain Adobe Flash videos & lessons that may not play on Apple OS (iPad, iPhone, iTouch) products. The iPad browsers apps: [iRover](#) & [iSwifter](#) *will* play Flash movie/videos.

Software

- Word processing, spreadsheets, & presentation software:
 - PC owners: [Microsoft Office Suite](#) (Word, Excel, PowerPoint)
 - Apple/Mac owners: [iWork](#) (Pages, Numbers, KeyNote)
 - Free/OpenSource for PC: [OpenOffice](#) (Writer, Calc, Impress)
- OR, a free, Cloud-based solution for anyone, like: [Google Docs](#)

Plug-ins

- Java 1.4 or higher
- Shockwave Plug-in 8.5 or higher
- Flash Plug-in 9.0.28.0 or higher (9.0.115.0 not recommended)
- QuickTime 7.0 or higher
- Adobe Reader

Connectivity

- Internet connection required
56kbps modem (High Speed 256K+ Recommended)
The faster the speed, the better the overall experience.

Memory

- 128 MB Ram (512MB Recommended)
